FINE ARTS COMMISSION
OF THE
CENTRAL INTELLIGENCE AGENCY

1. The Fine Arts Commission was established in 1963. Its purpose is to advise the Director on esthetic matters relating to the Headquarters Building and grounds.

2. The commission is concerned particularly with the visual aspects of public areas in the Headquarters Building; for example, the display of art or proposed changes in furnishings or color schemes. The commission acts as the coordination point for suggestions concerning the appearance of the Headquarters Building and may recommend courses of action relating to the enrichment of the work environment. The commission also is available to Agency components located in other buildings for consultation on such matters.

3. The members of the commission are appointed by the Executive Director from Agency personnel and serve in addition to their other duties. Appointment is on the basis of qualifications and not on the basis of organizational representation.

FOR THE DIRECTOR OF CENTRAL INTELLIGENCE:
